## Massillon Cable TV Signs with Comporium Security Dealer Program to offer the uControl Next-Generation Security Platform

**Rock Hill, S.C., (March 9, 2010)** – Massillon Cable TV and Comporium are pleased to announce that Massillon has joined the Comporium Security Dealer Program. Massillon Cable TV and Comporium reached the agreement at the recent National Cable Television Cooperative (NCTC) Winter Educational Conference & Technology Showcase.

"We are always on the lookout for complementary services for our customers," said Massillon Cable TV President Bob Gessner, who is a past chairman of the NCTC's board of directors. "In the near future, security monitoring will grow to encompass a variety of futuristic services that we want to deliver to our customers." Massillon is one of the nation's top fifty largest cable TV providers, serving 47,000 customers in central Ohio. By signing up for Comporium's Security Dealer Program, Massillon Cable's customers will benefit from the latest technology available for the "connected home," and it expands Massillon's services beyond the triple play of VoIP, video and broadband.

"We welcome Massillon Cable TV to our Dealer Program," said Dan Lehman, general manager of the Comporium Security Dealer Program. "Our partnership with uControl provides the software platform that enables broadband service providers like Massillon Cable to not only provide state-of-the-art security systems and service but also to deliver advanced features like energy management, video monitoring and much more, all from the same platform."

### About Massillon Cable TV

Massillon Cable TV, Inc. is a locally owned and operated communications company providing video, data and voice services to more than 47,000 homes and businesses in Western Stark County and Central Wayne County, Ohio. More information is on the company website [www.massilloncabletv.com](http://www.massilloncabletv.com).

### About uControl

uControl's award winning next-generation home security and automation solution pairs its open, technology agnostic infrastructure with the industry's only "All-In-One" SMA TouchScreen combining an alarm system, communications gateway and home automation platform into one device. For more information, go to [www.ucontrol.com](http://www.ucontrol.com).

**About Comporium**

Comporium is a diversified communications company providing a Quintuple Play of five services -- voice, video, data, wireless and security -- at the retail level. More information on Comporium's Security Dealer Program can be found at [www.comporium.com](http://www.comporium.com).
